<div>Feature </div> <div>Backend</div> <div><p><i>This ticket was big. But at least the groundwork has now been done and you can add cool new features on top. There are no limits to your creativity.</i></p></div> <div>Add one Feature  to the backlog.</div>	<div>Feature </div> <div>Backend</div> <div><p><i>All team members worked individually on this feature without communicating it. As a result, the overall system is a mess.</i></p></div> <div>Add 1  technical debt to the backend.</div>	<div>Feature </div> <div>Frontend</div> <div><p><i>While working through this feature, you noticed some errors.</i></p></div> <div>Add one Bug  to the backlog.</div>
<div>Feature </div> <div>Backend</div> <div><p><i>This was a small task for you that means a lot for someone else. You draw strenght from this knowledge.</i></p></div> <div><u>Only in the next iteration,</u> you have 1  more at your disposal.</div>	<div>Feature </div> <div>Backend</div> <div><p><i>You came up with some new ideas during the implementation of this feature.</i></p></div> <div>Add one Feature  to the backlog.</div>	<div>Feature </div> <div>Backend</div> <div><p><i>This feature replaced an obsolete one. The code became significantly leaner as a result.</i></p></div> <div>Remove 1  technical debt from the backend. This card does not count for the calculation of technical debt.</div>
<div>Feature </div> <div>Frontend</div> <div><p><i>Today, you are somewhat unfocused.</i></p></div> <div>Add 1  technical debt to the frontend.</div>	<div>Feature </div> <div>Frontend</div> <div><p><i>The feature turns out to be more complicated than expected, so you take it with you into the next iteration.</i></p></div> <div>Put this card with this side facing up back into the backlog. It is a Frontend-Feature  with the cost of 3  + 1  / . You must select it for the next iteration.</div>	<div>Feature </div> <div>Frontend</div> <div><p><i>This feature is completed but unfortunately, you made some mistakes.</i></p></div> <div>Add 2 Bugs  to the backlog.</div>

<div>Feature </div> <div>Frontend</div> <div><div>Cost <div> + 1  / </div></div><div></div><div><i>Barchart for income and expenses in each category</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost <div> + 1  / </div></div><div></div><div><i>Adapt to corporate design</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost <div> + 1  / </div></div><div></div><div><i>Automatic reminders via email</i></div></div>
<div>Feature </div> <div>Frontend</div> <div><div>Cost <div> + 1  / </div></div><div></div><div><i>Make texts sound friendlier</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost <div>  + 1  / </div></div><div></div><div><i>Integration for the book-keeping software</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost <div>  + 1  / </div></div><div></div><div><i>Keyboard shortcuts</i></div></div>
<div>Feature </div> <div>Backend</div> <div><div>Cost <div>  + 1  / </div></div><div></div><div><i>Improving performance of the import parser</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost <div>  + 1  / </div></div><div></div><div><i>Collect server-side usage statistics</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost <div>  + 1  / </div></div><div></div><div><i>Model for annotations to reports</i></div></div>

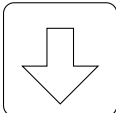

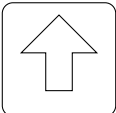

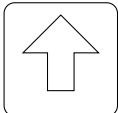

<div>Feature </div> <div>Backend</div> <div>Nice work.</div> <div>This card does not count for the calculation of technical debt.</div>	<div>Feature </div> <div>Frontend</div> <div>Just when you completed this feature, Mathilde  calls you with some feedback.</div> <div>Add one Bug  to the backlog.</div>	<div>Feature </div> <div>Frontend</div> <div>Harald  likes the new feature and is eager to see it improved further.</div> <div>Add one Feature  to the backlog. The feature added this way must be selected in the next iteration.</div>
<div>Feature </div> <div>Frontend</div> <div>You still had some time after this featur, so you sat down to refactor. You were unfocused though, so parts of that need to be redone.</div> <div>Only in the next iteration, you have 1  less at your disposal. Remove 1  technical debt from the frontend.</div>	<div>Feature </div> <div>Backend</div> <div>Very good, another feature is completed. You can be proud of that.</div> <div></div>	<div>Feature </div> <div>Frontend</div> <div>You've been wanting to work on this feature for a long time. Yo're very happy to have tackled it now, which results in a motivation boost.</div> <div>You <u>permanently</u> have 1 more  at your disposal.</div>
<div>Feature </div> <div>Backend</div> <div>This feature integrated very well with the codebase.</div> <div>This card does not count for the calculation of technical debt.</div>	<div>Feature </div> <div>Backend</div> <div>While working on this feature, Harald  approached you and gave you new IT equipment. This will make your work easier in the future.</div> <div>You <u>permanently</u> have 2 more  at your disposal.</div>	<div>Feature </div> <div>Backend</div> <div>During the implementation of this feature, you noticed a problem in the legacy code.</div> <div>Add one Bug  to the backlog.</div>

<div>Feature </div> <div>Backend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Pdf export of reports</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Seamless transition between visualizations</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Add overview to side panel</i></div></div>
<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Implement new design of the search filters</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Implementation of the report life cycle</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Allow statistical queries for controlling</i></div></div>
<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Onboarding tour for new users</i></div></div>	<div>Feature </div> <div>Frontend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>Input of base data</i></div></div>	<div>Feature </div> <div>Backend</div> <div><div>Cost</div><div> + 1  / </div><div></div><div><i>LDAP integration</i></div></div>

<div>Feature </div> <div>Frontend</div> <p><i>Finishing this feature went faster than expected. You used the time to continue working on others.</i></p> <p>A Feature  from the backlog with the cost of 1  is considered implemented without effect activation. However, it counts for the calculation of the technical debt.</p>	<div>Feature </div> <div>Frontend</div> <p><i>While implementing this feature, you noticed code that is never called. After consulting with the team you removed it.</i></p> <p>Remove 1  technical debt from the frontend.</p>	<div>Feature </div> <div>Backend</div> <p><i>This feature was easier than expected. You used the free time to refactor a little.</i></p> <p>Remove 1  technical debt from the backend. This card does not count for the calculation of technical debt.</p>
<div>Feature </div> <div>Frontend</div> <p><i>The security department has found a problem with this features.</i></p> <p>Add one Bug  to the backlog.</p>	<div>Feature </div> <div>Backend</div> <p><i>Just when you were done, your computer crashes and today's work is gone.</i></p> <p>Put this card with this side facing up back into the backlog. It is a Backend-Feature  with the cost of 2  + 1  / .</p>	<div>Feature </div> <div>Frontend</div> <p><i>During coding, you realize that you still need a new design for a component. The UX team gets to work.</i></p> <p>Put this card with this side facing up back into the backlog. It is a Frontend-Feature  with the cost of 1  + 1  / . You must not select it for the next iteration.</p>
<div>Feature </div> <div>Backend</div> <p><i>THis feature needed shotgun surgery: lots of small changes in lots of places. Maybe it's time to refactor.</i></p> <p>Add 1  technical debt to the backend. Add 1  technical debt to the frontend.</p>	<div>Feature </div> <div>Frontend</div> <p><i>The implementatio of this feature meant a lot of fast typing, so one of you got repetitive strain injury and is out sick for the time being.</i></p> <p>You permanently have 2 less  at your disposal.</p>	<div>Feature </div> <div>Frontend</div> <p><i>This feature was quite a chunk of work. Finishing it helped bringing you together as a team so that future work will be easier.</i></p> <p>You permanently have 1 more  at your disposal.</p>
